Winnicott's theories on the influence of an infant's early ...

Winnicott's opinion, inevitable however, their frequency, timing and intensity were central to the development of emotional health. During the Second World War, Winnicott worked closely with evacuees, and it was during this time that he became interested in adolescents and the development of delinquency and anti-social behaviours.

41: The Theory of the Parent-Infant Relationship

The infant and the maternal care together form a unit. Certainly if one is to study the theory of the parent-infant relationship one must come to a decision about these matters, which concern the real meaning of the world dependence. It is not enough that it is acknowledged that the environment is ...
